

EASTLAKE COMMUNITY COUNCIL
2049 FAIRVIEW EAST
SEATTLE, WA. 98102
EA 3-0926

BULLETIN

Once again we are urging you to protest high rise on Lake Union -- this means 80 ft. structures in some areas.

We have tried meetings, petitions, and lawsuits, -- there is still a strong chance that high rise over Lake Union will happen.

The Lake Union Use Ordinance is coming before the city council on September 12, 1973 for its final draft.

If you don't want high rise on Lake Union WE URGE YOU TO WRITE Seattle City Council, c/o John Miller, Chairman of Planning and Urban Development Committee. We have endlessly repeated our group opinion that we (Eastlake Community Council) do not want high rise over Lake Union -- BUT -- individual letters or post-cards are needed to get the point across!

Nothing is quite so convincing as an onslaught of protest mail from individual citizens -- so --- please, DO IT!

At the last General Meeting of ECC, the body decided that no heights over 35 ft. would be acceptable, and those are the height guidelines that we are asking for all around Lake Union.

SAMPLE LETTER

Dear Mayor Uhlman and City Council Members:

I would not favor and plan that would allow high rise over Lake Union. I think that the 35 feet height limitations suggested by the Shoreline Management Act are high enough.

Ours and other communities have worked hard to preserve a quality of life in an urban environment and this community environment would be hurt and Lake Union would be hurt by 80 feet high buildings, and other structures that make visual and physical access to Lake Union impossible.

Sincerely,

Concerned Citizen

LETTERS MUST BE IN BEFORE SEPTEMBER 12, 1973.
